

BIG CLEAN, SMALL MACHINE

QUICK SCRUB

THE DAILY CLEAN FLOOR MACHINE

QUICK SCRUB

NOT YOUR AVERAGE CLEAN MACHINE

The Quick Scrub replaces the need for scheduled restorative floor cleaning. Featuring patent pending innovations for increased speed and performance, this daily clean machine is the industry's only solution to cleaner, safer, and soil-free small space environments.

CLEAN, SERIOUSLY.

RAISING YOUR EXPECTATIONS OF WHAT “CLEAN” REALLY MEANS

With the Quick Scrub, all spaces — even the tightest — can be truly free of soil. The machine is designed to eliminate bacteria before it clings to surfaces, removes all of the soil daily, and eliminates the need for scheduled/restorative cleaning — all while maintaining a safe, healthy facility.

Green- Kitchen & Food Prep

Blue- Common Areas

BYE BYE, BACTERIA.

A RECENTLY MOPPED HEALTHCARE RESTROOM FLOOR BEING CLEANED BY THE QUICK SCRUB.

Apply Solution & Scrub

Recover Soil & Dry Floor

MAXIMUM UTILITY. MINIMAL PACKAGE.

THE INDUSTRY'S MOST EFFECTIVE *AND* EFFICIENT SOLUTION

The Quick Scrub is about the size of your standard mop bucket, wringer, and mop handle. It is more compact and flexible than any other small space cleaning machine in the industry. Its streamlined design allows users to clean quickly even in the tightest spaces. It cleans everywhere, every time.

REDUCE TIME & LABOR COSTS

CONSOLIDATE YOUR CLEANING TOOLS TO ONE!

The Quick Scrub cleans and removes soil daily. The industry average stipulates that it will cost \$500 to remove 1 pound of dirt from a commercial building. Labor costs are reduced by eliminating a variety of tools, plus the need for scheduled, restorative methods. Your team can re-allocate time and labor to focus on other important tasks of the day. The return on investment is quick and your floors will stay in peak condition, providing a clean look daily.

KEEP THE CAUTION SIGN
IN THE CLOSET.

ENJOY THE BENEFITS OF COMPLETE SOIL RECOVERY

The Quick Scrub permits cleaning without the need to completely shut down areas. This is the only solution for daily cleaning, maximum convenience, safety, and the potential for a lowered risk of slip-and-fall incidents.

ScrubDry Technology

≈ DRY

💧 SCRUB

DITCH THE DIRTY MOP.

Mops fail to clean surfaces. Instead, they spread dirt, leaving a slippery residue and making costly restorative cleaning a mandatory practice. Industry reports indicate that 80% of complaints of uncleanness are linked to dirty floors. Food prep has the same concerns with various strains of salmonella due to inadequate maintenance of floors and drains.

Various studies have shown the ineffectiveness of traditional mop, bucket, and wringer solutions; sources include the National Center for Biotechnology Information, Canada's University of Ottawa, the American Society of Microbiology, The Pharmaceutical Journal, and more. However, many facilities managers and related professionals are unaware of these findings and, until now, there hasn't been a real solution.

The Quick Scrub is revolutionizing the industry. It's the only daily clean machine on the market that guarantees cleaner, safer confined space environments — allowing users to join the journey of changing daily cleaning forever.

MODEL**QS-12****Machine Specifications**

Length	24 in (61 cm)
Width	19 in (48.3 cm)
Height	36 in (91.4 cm)
Weight w/ Std Batteries	110 lbs (49.9 kg)
Weight w/ Opt'l Batteries	131 lbs (59.4 kg)
Sound level	68 dBA
Construction	Rotationally molded polyethylene tanks, powder coated steel frame

Solution Delivery System

Solution Capacity	5.5 gal (20.8 L)
Solution Control	0.0- 0.38 gpm (0.0- 1.44 L/min)
Solution Control Settings	Manual Trigger

Scrubbing System

Cleaning Path	12 in (30.5 cm)
Pad/Brush Size	12 in (30.5 cm) Brush
Scrub Head Height	3.6 in (9.2 cm)
Handle Height	55.5 in (141 cm)

Recovery System

Recovery Tank Capacity	6 gal (22.7 L)
Recovery Tank Accessibility	Full Clean-Out Access
Vacuum Motor	210 W, 3-Stage
Vacuum Motor cfm/cmm	55.7 cfm (1.58 cubic m3/min)
Vacuum Motor Water-lift	29.8 in (75.5 cm)
Squeegee Width	12 in (30.5 cm)
Squeegee Material	Primothane®

Battery System

System Voltage	12 V
Battery Amp/Hour Rating (Std)	26 Ah
Battery Run Time (Std)	Up to 1.4 hours
Battery Amp/Hour Rating (Opt'l)	61 Ah
Battery Run Time (Opt'l)	Up to 3.5 hours
Charger Description	On-Board

PURPOSE BUILT® SOLUTIONS SINCE 1946

Pacific Floorcare® is dedicated to providing high-quality, innovative floor care equipment to our valued customers and end users. Our Purpose Built® philosophy has committed us to delivering the industry's most efficient products to building service contractors, facility managers, and cleaning professionals.

Genuine Service Parts

Why copy when you can get the original parts — the ones actually used in the machine's original design work the best. Not only do you get maximum performance, but you also reduce hassle and downtime. Be sure to contact Pacific Floorcare or an authorized distributor when you need authentic service parts.
